**Protest over Food and Drug Administration ban on
Haitian blood donations, Brooklyn, New York, April 20, 1990**
COURTESY AP/GERALD HERBERT

In the early 1980s, particular types of people were blamed for the spread of AIDS. The theory of the 4 H's—that AIDS was restricted to homosexuals, Haitians, hemophiliacs, and heroin users—inaccurately assumed that identity, not behavior, put people at risk.
