

Deleted Qualifiers:

- radiography
- radionuclide imaging
- ultrasonography

New Qualifier:

diagnostic imaging

Includes all three deleted Qualifiers

Deleted 2016 MeSH Qualifiers

| Deleted 2016 MeSH Qualifiers | |
|------------------------------|---|
| Qualifier | radiography |
| Unique ID | Q000530 |
| Record Type | Q |
| Entry Version | RADIOGR |
| Abbreviation | RA |
| Scope Note | Used with organs, regions, and diseases for x-ray examinations. It does not include radionuclide imaging for which "radionuclide imaging" is used. |
| Annotation | subhead only; includes "x-ray diagnosis", "roentgenography"; not for radioisotope scanning (= / radionuclide imaging); indexing policy: Manual 19.8.61; DF: /radiogr or /RA |
| Online Note | search policy: Online Manual; use: main heading/RA or RA (SH) or SUBS APPLY RA |
| History Note | 67; used with Category A & C 1967, 1978-88; A, C & F 1968-74; A, C & F3 1975-77, 1989; A, B2, C & F3 1990 forward |
| Entry Term | X-ray |
| Entry Term | X-ray diagnosis |
| Entry Term | X-ray image |
| Entry Term | roentgenography |
| Qualifier | radionuclide imaging |
| Unique ID | Q000531 |
| Record Type | Q |
| Entry Version | RADIONUCLIDE |
| Abbreviation | RI |
| Scope Note | Used for radionuclide imaging of any anatomical structure, or for the diagnosis of disease. |
| Annotation | subhead only; includes "radioisotope scanning"; see MeSH scope note in Introduction; indexing policy: Manual 19.8.62; DF: /radionuclide or /RI |
| Online Note | search policy: Online Manual; use: main heading/RI or RI (SH) or SUBS APPLY RI |
| History Note | 78; used with Category A & C 1978-88; A, C & F3 1989; A, B2, C & F3 1990 forward |
| Entry Term | radioisotope scanning |
| Qualifier | ultrasonography |
| Record Type | Q |
| Entry Version | ULTRASONOGR |
| Abbreviation | US |
| Scope Note | Used with organs and regions for ultrasonic imaging and with diseases for ultrasonic diagnosis. Does not include ultrasonic therapy. |
| Annotation | subhead only; includes "ultrasound", "ultrasonic diagnosis", "echography", "echotomography"; not for ultrasonic therapy (= ULTRASONIC THERAPY); see MeSH scope note in Introduction; indexing policy: Manual 19.8.77; DF: /ultrasonogr or /US |
| Online Note | search policy: Online Manual; use main heading/US or US (SH) or SUBS APPLY US |
| History Note | 91; used with Category A, C & F3 1991 forward |
| Entry Term | echography |
| Entry Term | echotomography |
| Entry Term | ultrasonic diagnosis |
| Entry Term | ultrasound |

New 2017 MeSH Qualifier

| New 2017 MeSH Qualifier | |
|-------------------------|--|
| Subheading | diagnostic imaging |
| Unique ID | Q000000981 |
| Record Type | Q |
| Entry Version | DIAG IMAGE |
| Abbreviation | DG |
| Scope Note | Used for the visualization of an anatomical structure or for the diagnosis of disease. Commonly used imaging techniques include radiography, radionuclide imaging, thermography, tomography, and ultrasonography |
| Annotation | subheading only; coordinate with specific imaging technique if pertinent |
| History Note | 2017(1967) |
| Entry Term | radiography |
| Entry Term | X-ray |
| Entry Term | X-ray diagnosis |
| Entry Term | X-ray image |
| Entry Term | roentgenography |
| Entry Term | radionuclide imaging |
| Entry Term | radioisotope scanning |
| Entry Term | ultrasonography |
| Entry Term | echography |
| Entry Term | echotomography |
| Entry Term | ultrasonic diagnosis |
| Entry Term | ultrasound |
