Accessing developmental and reproductive toxicology literature from PubMed

1. DART content has been migrated to PubMed as the “DART subset”. To search developmental and reproductive toxicology literature, append search terms after the “dart [subset] AND”.

![Search results page with thalidomide as search term]

Add search term after the "dart [subset] AND"

2. Alternatively, by clicking on the link below, a “Toxicology” filter will be set.

Search TOXLINE in PubMed by setting the “DART” filter

You will see the “Filters activated: DART” on the PubMed search page.

Enter search terms in the search box.

![Search page with thalidomide as search term]

In the search results, you will see the ‘DART” filter turned on.

Here’s an example search results page

* Click on “clear” to unset the filter.
